FOUNDER LETTER

To Future ReachEquilibria Leaders,

ReachEquilibria was founded on the belief that students possess the ability to create meaningful and lasting change.

While the organization was inspired by personal loss, its future is defined by service, advocacy, education, leadership, and impact. ReachEquilibria was never intended to depend upon one individual. Instead, it was created to empower generations of students to improve their communities and advance mental health awareness, support, and reform.

This Constitution exists to preserve the mission, values, and long-term vision of ReachEquilibria while providing a framework that allows future leaders to expand the organization far beyond its origins.

As leaders, your responsibility is not simply to maintain ReachEquilibria. Your responsibility is to strengthen it, expand its impact, and leave it better than you found it.

Thank you for continuing the mission.

Sincerely,
